We attended three gladiolus shows in 1958, winning such honors as sweepstakes, champion 3-spike miniature (2), smallest floret; smallest basket; best vase; best corsage (3); besides many ribbons, most of them blue, including twelve seedling firsts and runner-up for best seedling. It was also a pleasure to serve as All American judge for miniatures. And our bulb crop is our largest and cleanest. Some of them look like balls. All look like wax, their covers like satin. It is fun just to feel them in my hands!

PRESENTING: Six new Miniatures by Mirl Vawter.

BECCA(286) Ruffled rosy cocoa brown velvet. Has 18 buds and opens six 3-inch florets well-placed and faced; firm attachment. Has never crooked; fine propagation. Shown once, at Portland, 1958; won a blue ribbon. 45 inches field height, flowerhead 18 inches. Any size bulb, \$1.00 each.

COPPER ROSE(290) Lightly ruffled purest coppery rose, pointed petals. Opens six $3\frac{1}{4}$ inch florets on a spike of 18 buds. Good facing and attachment, rather open placement. Field height 45 inches, flowerhead 19 inches. Probably 3% crooked in extreme heat last summer, all others stood straight. Shown once, won a first prize, Portland, 1958. Any size, \$1.00 each.

EILEEN CHURCHILL(267) Pictured on our cover. Seedling of Lucille and Parma Violet, it is clear orchid with fuchsia blotches. Quite regular in performance. Formal placement, holds 9 3-inch florets open, 6 in color, of 19 buds. Field height 40 inches, flowerhead 18 inches. Facing, placement and attachment good. Has never crooked. Foliage is so small one would think the wee plants could never bloom but they never fail. Award of Commendation, Rhode Island Trial garden; first prize at Portland, 1958, only time shown. Any size, \$2.00 each.

GREG VAWTER(278) Rich deep violet velvet, the only marking is a thin white line down the two lower petals. Stands 44 inches high, has 19 buds, flowerhead is 19 inches. Opens 9 $3\frac{1}{4}$ inch florets with 6 in color. Attachment, facing and placement excellent. Has never crooked. Award of Commendation, Rhode Island Trial garden, 1958; rated A for exhibition, B for commercial use at Valley View, 1958; first prize at Portland, 1958; first prize and runner-up for Best Seedling, Mill City OSGS show) 1958. Early. Any size, \$4.00 each.

SMALL TALK(133) Tiny deep salmon with wide white midribs on lower petals; the midribs are edged with maroon, a unique marking. Opens six 2-inch florets, 18 buds well-placed and faced on a thin stem. Never crooks. Field height 40 inches; flowerhead 17 inches. Early; Won a first prize at Portland, 1958, only time shown. Award of Commendation, Rhode Island Trial garden, 1958. Any size, \$2.00 each.

SYLVIA HYPES(215) red-tipped green buds open to chartreuse yellow, each petal tipped scarlet. Opens 6 3-inch florets of 15 buds, stands 34 inches high in the field. Never crooks. Flowerhead not so long as

those of our other introductions, being about 15 inches, but it is as long as most other small flowered kinds. Visitors never fail to exclaim over it and we find it refreshingly different. Facing, attachment and placing good. Never been to a show, perhaps we are offering it a year too soon. Anyway, bulbs any size, \$2.00. each.

---***---

CADENZA(354-Vawter) Our larger introduction, glistening black-red velvet, its only marking being a white inverted V deep in the throat, less a marking than an identifying mark. Opens 8 $4\frac{1}{4}$ inch florets on a spike of 18 buds. Beautiful placement, facing and attachment. Has never crooked. Takes rain without spotting and sun without burning. It won us both single- and 3-spike firsts at Mill City, 1957, after lying dry in our grocer's meat counter, the best he could offer us, a week. They were the last four exhibitable spikes. Our cut-flower customers ask for it. bulbs any size, 50¢ each.

FROM OTHER ORIGINATORS:

BLUE PLUSH(278-Robinson) From James Robinson, Sebastopol, Calif. Our exclusive introduction. In the same color class as Greg Vawter but totally unlike it. Blue Plush is rich deep violet-blue, a plushy appearance. It has 15 buds and opens 5 with 4 in color. It ships: we received three different air shipments, all of which opened well in water. Flowerhead about 16 inches. Increase only fair. Prices this year and next, \$2.00 each.

WHIRLYBIRD(111-Baerman) Many people look down on faceups which is the proper angle for viewing faceups and often results in the viewers becoming fond of these little charmers. We once made a coffee-table arrangement of a faceup, and a flower show judge, after looking at it, remarked, "You just couldn't do anything wrong with a flower like that!" Anyway a lot of people are going to like WHIRLYBIRD, a wee rich cream with sharp scarlet blotches on all six petals. The 1-inch florets spiral up the wiry stem, never any crooks; 6-7 open of 17 buds and flowerhead 17 inches. Try this darling. Any size, 50¢ each.

---***---

JEWEL BOX COLLECTION: One bulb each of Becca, Copper Rose, Eileen Churchill, Greg Vawter, Small Talk, and Sylvia Hypes, a \$12.00 value for only \$10.00. We will include free with this collection one bulb of either Cadanza or Whirlybird: state your choice.

SUNSET(424) Large glowing salmon-orange, like the highlights of a gorgeous sunset. Large wide-open florets, long spikes. L-\$1.25; M-90¢; S-60¢.

Last year's introduction, OPERETTA, will be reclassified 215 on advice of several judges and commercial growers who saw it at shows last summer. All agreed that it was a fine miniature but too small for its previous 315 classification. I guess we bent over too far backward to classify it big enough, though it didn't exceed the 200 size here. One enthusiastic customer wrote that OPERETTA behaved like a first class jewel even in the extreme heat and drought. We have one report of crooking, and three or four spikes crooked for us, but all others came straight and lovely with 6 lacy florets open at once, the large flame feathers lighting the pale yellow flowers. Makes up like orchids. Prices this year, L-\$1.00; M-75¢; S-50¢.

100 (MINIATURE) and 200 (SMALL-FLOWERED VARIETIES).

Low-priced kinds are grouped together here; all are the same prices: L(arge)-2/30¢; M(edium)-2/20¢; S(mall)-3/20¢. Bulblets (Bt. 25¢ package of 50 to 100 according to supply.
